IT Contracting Solutions

We can find you the right talent quickly.

IT Force - let us meet your staffing needs

Would your business benefit from additional IT staff, now and again?

With 15 years infrastructure services and recruitment experience, we work with IT Departments to deliver additional resources and expertise, as needed.

We find and recruit the very best people for your **contract and permanent** roles.

We will take the hassle out of your IT recruitment, saving you time and money.

We specialise in recruiting:

- Help Desk staff
- IT Specialists
- Infrastructure staff
- Project Managers

WHAT MAKES US DIFFERENT?

- Candidate *Plus* - All our candidates have access to the IT Force Support Help Desk, an extra layer of specialist expertise, for when they need it.

- If you need specific skill sets, for an ad-hoc project or a permanent role, we will find them for you.

- We can arrange backup support for staff leave - both scheduled and unscheduled.

- Our connections will get you direct access to specialist expertise. We partner with vendors such as Microsoft, Symantec, Citrix and Cisco.

- Don't let recruitment embargos delay your projects - we can find the skills you need on contract.

- If your company is in aquisition mode or going through a transition period, why not use us to augment your staff, or access additional expertise?

- If you need someone, but you are unsure of the specific skill sets, we will help you with the job specification.

IMAGINE - **EVERY** CV you get describes your **IDEAL** CANDIDATE!

Before you receive a CV from us we will:

- source ideal candidates for the role;
- screen them according to your specific needs;
- test their technical competency; and
- undergo a first round interview.

Only now, if we are still happy with the candidate, do you have to read their CV!

Let us help you to get the skills that you need, on the budget that you have.
