

Microsoft Solutions

We understand technology, so you don't have to.

A recent satisfaction survey undertaken of IT Force clients, in conjunction with Microsoft, measured client satisfaction levels in six key areas.

In this global survey, the IT Force results outranked the Microsoft worldwide and the Ireland benchmark results in all six areas, including value delivered, overall satisfaction and technical competency.

Completed by 33% of our client base, this anonymous survey asked respondents to rate our performance on a scale of 1 to 6 *in each of the areas surveyed*.

100% of respondents would **RECOMMEND** us to a colleague, or friend.

100% of respondents gave our staff top marks for **TECHNICAL COMPETENCY** with a rating of 6 out of 6.

100% of respondents were **SATISFIED OVERALL** by IT Force, the solutions they were offered, the service they received and the relationships that were built.
