

# Get your Workforce Moving

*We can help you revolutionise how you do business.*

## IT Force - Leaders in Workforce Mobilisation

*Workforce Mobilisation will give your employees access to the business applications they need, when they need them. No longer restricted to the office, they can now be where it matters most - in front of customers and decision makers. Being IT mobile will maximize your employees' contribution to the organisation.*

Workforce Mobilisation isn't a quick and simple transition; it requires thought, consideration, and planning. It is a business strategy that will deliver business benefits that simply cannot be ignored.

### Delivering the ultimate *Managed Mobile Tablet Solution*

At IT Force, we have extensive experience in Workforce Mobilisation. This makes us ideal partners for any company considering it for their business.

In addition to expertise and guidance, our carefully devised **OpEx model** will eliminate the burden of a large capital outlay, a hurdle for many companies looking to introduce IT Mobility.

Our *Managed Mobile Tablet Solution* allows you to manage the costs while increasing productivity and your employees can access the business tools they need, on the go.

## BENEFITS

- **OpEx model** - know what you will be spending every month.
- Proven implementation process devised from knowledge and experience, ensuring a smooth transition to a workforce on the move.
- Tablets will be set-up with access to the various business applications used by your employees.
- Technology - get the latest hardware that most suits your business needs.
- Uniform approach to mobile device management simplifies IT administration.
- Pre-installed antivirus software ensures that you are protected.
- Pre-configured mobile device management solution guards your corporate network and data.

### Don't know where to start?

Let IT Force, leaders in Workforce Mobilisation, help you to get moving.

# Benefit from our Experience

*We have already taken the tough route, so you don't have to.*

## TAKING THE FIRST STEPS...

Our role is to advise you on how to get your workforce mobilised. To do this we need to understand your business.

*We will review your processes, assess your requirements and identify the business applications that your employees will need access to when on the move.*

We can then identify your options and advise you on the best approach to getting your workforce mobile.

## YOU WILL...

### Choose *IT*

We will bring you the latest iOS, Windows or Android tablets to try out.

Our practical assistance and support focuses on helping you make the right product choice for your company.

### Trial *IT*

Select some employees for a trial and we will set them up with fully-functioning devices. We will work closely with you during this trial period to establish a suitable implementation process.

## WE WILL...

### Supply *IT*

Under our **OpEx model**, we will supply you with your chosen mobile device. All devices will be fully tested prior to delivery.

### Protect *IT*

We will protect your mobile device with specialist antivirus software guarding against spam, viruses and web-based threats.

### Guard *IT*

Our Mobile Device Management platform will safeguard your company's network and data from unauthorised access. If a device is lost / stolen, we can remotely wipe all company data from it.

### Manage *IT*

We offer a complete service and will manage all aspects of your corporate mobile device solution.

### Insure *IT*

No quibble replacement if your device is lost, stolen or broken.

27 Fitzwilliam Street Upper, Dublin, D02 TP23.
